

<p> Figure 1. The effect of the number of iterations on the accuracy of the proposed algorithm. The figure shows the accuracy of the proposed algorithm for different numbers of iterations (10, 20, 30, 40, 50, 60, 70, 80, 90, 100). The accuracy increases as the number of iterations increases, and it reaches a maximum value of 1.0 at 100 iterations. </p>
